Picturesque
Victoria

Victoria, B.C.

Victoria is the Capital City of British Columbia. It is beautifully situated on an arm of the sea, overlooking the Straits of San Juan de Fuca, with the Olympic Range and snow-capped Mount Baker in the background.

Victoria is famous as a tourist resort, having the finest Hotel of the North-West, and cool, refreshing Summer climate. The chief attractions are the magnificent Parliament Buildings; Beacon Hill Park, of three hundred acres of natural pleasure grounds; and the Gorge, which has a reversing waterfall with the in-coming and out-going tides. Esquimalt Harbour, with its warships and fortifications, is the Gibraltar of Western Canada; while Chinatown with its theatre, joss houses, and strange stores, attract many visitors, as do the Indian and Alaska curio dealers.
